

*With our
three fully redundant
SNG vehicles, we provide professional
satellite transmissions for your live events!*

Whether you are planning an exciting sports event, current news coverage or a prestigious medical conference – we offer an excellent service and high-end technology that meets the newest state-of-the-art.

We are the reliable piece of a puzzle which ensures that your viewers receive a perfect transmission. Our past and current projects include the supply of the satellite uplinks and downlinks for Champions League Finals, adventurous Red Bull events and the Pope's visit to Germany.

You, too, can benefit from our expertise of many years and from our swift operational readiness. We are ready to serve you in Germany, Austria, Switzerland and neighbouring countries.

Services:

- Satellite uplinks and downlinks
- Stand up and live transmission of events
- Booking of satellite capacities and foreign licenses

Technical details:

- Three fully redundant SNG transmission vehicles
- Dual Carrier
- Two live HD - cameras
- HD & SD quality in MPEG 2 and MPEG 4 (4:2:0 / 4:2:2, 8bit & 10bit) format.
- BISS encryption
- Recording on a SxS Recorder

Interested? We'll be delighted to discuss your requirements with you.
